

Seminar on Construction Noise

Control of Construction Noise via a Permit system

Construction noise in a vibrant and dynamic city like Hong Kong is not an easy task to tackle. Whilst on one hand, there is a huge demand of large infrastructure projects to cater for economic development, the population growth and essential maintenance work to cater for the almost non-stop activities in Hong Kong, there are, on the other hand, the community demands for a quieter environment for better enjoyment of life, and more importantly, a good rest to prepare them for another busy day ahead. To get a way to balance the two and create a win-win situation would present a big challenge to the stakeholders today.

We are delighted to have Mr MA Kin Tin, Geli of Environmental Protection Department (EPD) to deliver a seminar on construction noise. Mr Ma will present an overview of regulatory control of construction noise in Hong Kong and share with members some crucial factors imposed under the present legal framework for considering construction noise permits applications.

The details of the seminar are as follows:

Speaker: Mr MA Kin Tin, Geli
Environmental Protection Officer, Noise Management & Control Section,
Environment Assessment Division of EPD

Venue: 4/F, Duke of Windsor Social Service Building, 15 Hennessy Road, Wan Chai

Date: 9 February 2015 (Monday)

Time: 6:30 - 8:00 p.m.

Registration & Enquiries

The Seminar is free of charge. If you are interested, please complete your on-line registration by 5 February 2015 (Thursday). Registration is accepted on a first-come-first-served basis. Successful applicants will be notified by e-mail separately. Link for on-line registration is listed below:
